

Like Two Thousand Sons

(I Will Not Doubt)

Words by:
Adrian (Ace) Beorchia, missionary extraordinaire

Music by:
Linda Hartman and
Jaime Hartman Guitierrez

The story of the two thousand valiant sons is unique to the teachings of the Church of Jesus Christ of Latter-Day Saints. Other christian denominations who might like to use this song are invited to use the supplementary title and to substitute the name of a biblical prophet/general/leader in place of the phrase "two thousand sons" wherever it appears in the text. For example, the words "Joshua's men" will work well. No other changes in the music or text should be made.
